

Whirly Bird

Instructions

- 1 Cut out the shape carefully with scissors.
- 2 Cut down the **middle line** to the dotted line.
- 3 Decorate your shape using pencils or pens but be careful not to tear it.
- 4 Fold the surfaces down at the dotted line in opposite directions as shown by the arrows.
- 5 Attach some weight to the circle with either a pinch of blue tack or two paper clips.

Now you are ready to whirl

- 6 Throw your whirly bird as high up in the air as you can using an under-arm throw.
- 7 Watch what happens as the surfaces meet the air on the way down to the ground.

Tip If it comes down to the ground too quickly take away some weight from the circle.
