Bha fiaclan *T.rex* uabhasach làidir airson cnàmhan a chagnadh is fèithean a ghearradh.

Faic an cnàmh mòr fo chasan *T.rex*.
Am faic thu na làraichean fhaclan?

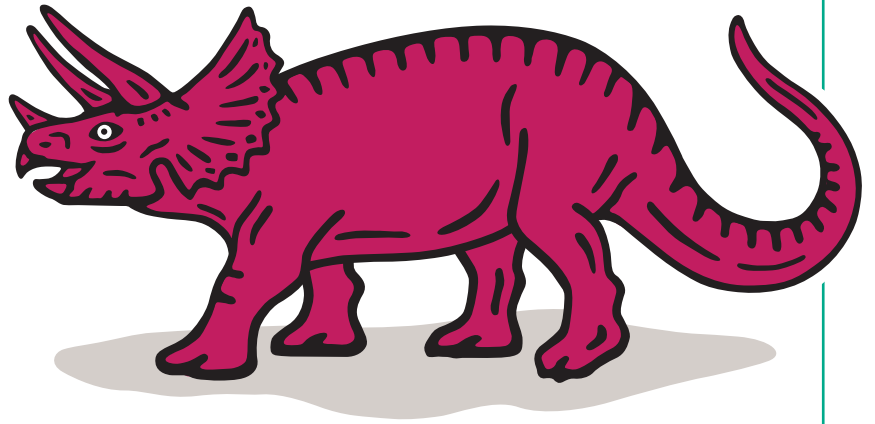

Lorg Triceratops

Ciamar a chleachdadh *Triceratops* a chuid adharcan?

Tagh aon fhreagairt a-mhàin

- ☐ Airson sabaid is dìon?
- ☐ Airson croganan biadh dìneasair fhosgladh?

Fios: Chaidh fosail *Triceratops* a lorg ann an 1997 is bha e coltach gun robh *T.rex* air adharc a bhìdeadh dheth.

Rach suas gu ÌRE 3 gu gaileiridh Mothachaidhean nam Beathaichean

Lorg *Parasaurolophus*

Ceangail na dotagan airson cumadh ceann an dìneasair a chrìochnachadh

Tha adharc falamh. Tha cuid a dh'èolaichean den bheachd gun cleachdadh am beathach e airson fuaim a dhèanamh coltach ri còrn ciùil.

Sgrùdaich an *Ichthyosaur*

Gaileiridh Planaid an Dàna-thurais

Stad aig *Stegosaurus*

Tarraing na pleitean a dhìth air druim *Stegosaurus*

'S math dh'fhaodte gum fàsadh na pleitean cnàmhach dearg mar gun robh e a' ruadhadh! Bhiodh seo a' tarraing companach no a' cur eagal air creachadairean.

'S math a rinn thu! Tha thu air slighe nan dìneasan a choileanadh! Tha thu cho cumhachdach ri *T.rex* agus cho luath ri *Struthiomimus*. Leig an ràààànnnn as motha a th' agad asad... meal do naidheachd!
